

TOWN OF CONCORD

HIGHWAY DEPARTMENT

SUPERINTENDENT, LARRY K. HEIM

CREW CHIEF, SHAWN CRAMER

Town of Concord Residents

With the winter season fast approaching, it has become apparent that road salt supply will be an issue again this winter. New state legislation has reduced our purchasing options as a town. Salt price **increases of 75%** over last year and questions about availability of adequate amounts are the situations we are facing. Many discussions on alternative plans moving forward are taking place. The Town of Concord Highway Department will make every reasonable effort to ensure the roads are plowed, treated and safe for travel, however, alternative methods may be used to accomplish this goal and salt availability may affect our ability to maintain the roads as we have in the past. We ask that you please do your part and use safe winter driving techniques: reduce your speed, allow extra travel time, allow extra distance to stop, install appropriate tires on your vehicle, and delay travel if possible during extreme weather conditions. Keep in mind this is not a "Town of Concord Only" problem; all municipalities will be experiencing the same road salt issues. Thank you for your understanding and patience. The safety of the residents and public remains our top priority.

Larry K. Heim
Town of Concord Highway Superintendent
